## Sofa Sizing - Specific Dimensions

HARD

GENERATED

### PROMPT

Replace the sofa with a large sectional that fills approximately 70% of the wall width. The sectional should be L-shaped, facing right, in warm gray bouclé fabric. Maintain proper scale relative to the coffee table and rug.

#### ● ORIGINAL

#### ● RESULT

### ✓ SUCCESS CRITERIA

- Sofa proportionally sized to wall
- L-shape orientation correct
- Scale relationship maintained
- Fabric texture visible

### ✗ FAILURE INDICATORS

- Sofa obviously wrong scale
- Floating or clipping into floor
- Other furniture distorted

## Pendant Light Height

HARD

GENERATED

## PROMPT

Add a large globe pendant light centered above the dining table. The pendant should hang at standard dining height - low enough to illuminate the table but high enough to not obstruct views. Warm brass finish, frosted glass globe approximately 50cm diameter.
